Hiya I will have both male and female mice for sale in the coming weeks :)I have 3 litters, I have unrelated litters so can mix if intended for breeding they are all absolutely beautiful and friendly can come and see them and hold! Pet only homes, female will be sold in pairs or more only no exception and males I can sell together but only if you can prove you have spare cages as they will more than likely fight as they get older if you require more pictures just message me and ask and I can send of specific
