

AKAI ADVANCE 61 MIDI CONTROLLER KEYBOARD (400 GBP)

Location **South West, Dorset**
<https://www.freeadsz.co.uk/x-531760-z>

I am selling my akai advance 61 key midi controller keyboard purchased from new at absolute music and stored away in box as building a music studio slowly hoping to get some use from it but never did I have replaced the short usb lead with a much longer one for convenience

This keyboard has 61 full size semi weighted keys with after touch and can change the sensitivity you can access all vsts via akai vip software settings for all major daws. Browsing sound my category style sound ect is easy and saves so much time directly on the colour display on keyboard. Layering sounds I.e. piano strings synth on keyboard is easy and only uses one instance of vip track in your daw

Please check akai website for more info

This is one powerfull midi controller perfect for ableton, fl studio, cubase ect

Manual is included all boxes

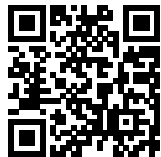

Please see photos thanks

CASH ON COLLECTION NO
