PATMENT IN CASH ONLY .CAN DELIVER WITH SMALL CHARGE

The Hoover VT914D22X Washing Machine is a modern and efficient appliance that comes with a wide range of features that have been designed to make cleaning your clothes easy.

A machine that does more

Boasting an impressively large 9 kg drum, the VT914D22X is the perfect machine for busy households and large families. Able to accommodate large loads with ease, you'll be able to get more cleaning done per cycle, without compromising on the quality of the cleaning.

Offering 16 different programmes, it's easy to select a cycle that's suited to your needs. Wash programmes on board the VT914D22X range from a fast 30 minute wash, which is perfect for lightly soiled and mixed cottons, to a sensitive care programme which offers a gentler wash for delicate fabrics.

Whether it's woollen garments, synthetics or sportswear you'll be able to receive outstanding results with the VT914D22X.

The drum on this machine is capable of spinning 1400 rpm and makes use of a 3D dynamic washing system. Enclosed in the drum are specially curved paddles and a raised dome which help to fluidly move your clothes around during the wash and ensures that everything is cleaned thoroughly.

Saving time and effort

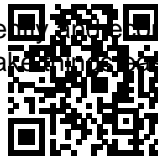

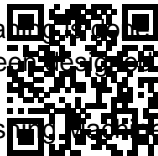

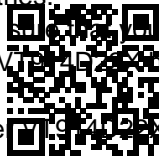

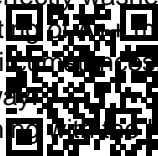

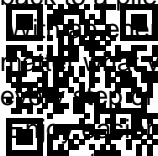

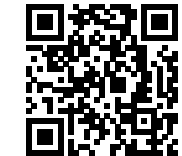

When your cleaning is complete, it's easy to unload the VT914D22X thanks to an extra large 350 mm porthole. Making sure that your washing is done on your schedule, you can take advantage of a delay timer of up to 23 hours.

Simply load up, set the time and then forget about it. When the allotted time comes around, you'll come back to a pile of perfectly washed clothes.

Energy rating: A, making it a very clean and efficient choice for your home. The VT914D22X has been designed to make it as easy as possible to use, with a large 350 mm porthole for easy access to the drum.
