

Injection molds and plastic parts production

Location

West Midlands, Warwickshire

<https://www.freeadsz.co.uk/x-533385-z>

We are a Polish mold maker and plastic parts producer. We are looking for partners from foreign countries. We would be interested in working with a company like yours as a subcontractor. We cooperate already with customers from England, Denmark, Sweden, Finland, Ukraine and Russia.

We would be amazed if we could offer you our partnership in the field of plastic processing. If you are also into subcontracting and cooperating with external companies, you could try us in the future. Maybe you will like it.

We are a Polish company which is into both manufacturing injection molds (for implementation of new designs) and producing plastic parts. You can check us out on our Internet website www.moldeo.pl or the website of our injection molding company – www.wamaplast.com.pl If you would like to see what our products look like you can visit our other Internet website (our business is a family business, so we have 3 brands at the same time:)) www.ms-tworzywa.pl They are just household products (but we do also this kind of production – electrical devices, technical elements and visual parts and so on), but the quality is very good, so you could take a look on them and have an idea of the quality of our productions.

On our website: www.moldeo.pl you can see our projects we used to do in our company. We support our customers from A-Z.

Who knows? Maybe we can make a successful deal:)
