

# Out standing Labrador toodles. Puppies for rehoming (400 GBP)

Location **London, London**  
<https://www.freeadsz.co.uk/x-533578-z>

Update!! 3 more reserved today , videos available -Family friendly litter of 9 outstanding puppies , all champagne, cream and red, by KC reg Apricot miniature poodle ,Dusty, known for his fantastic puppies, out of Scarlett, a beautiful cream KC reg Labrador girl.(both parents can be seen, with excellent health tests) . I only have two lab girls and so no more puppies this year. Waiting list now open, be quick, as they are very sort after, and will go really quickly. We are happy to let them go to first time dog owners, confident in their amazing friendly and trainable temperaments, with lots of help from ourselves. The puppies are brought up in the beautiful Kent countryside, and come with a big puppy pack, toys, bowl, treats(!) etc, 4 weeks free insurance, and the offer of a weeks free keep in their first year, as we can't bear the thought of them going into kennels so young (and we love seeing them growing up) . They are brought up with all the usual family things going on, including some usual sights including Peppa Pig, and the llamas, as well as lots of horses and ponies! My son is a vet, and under his guidance Scarlett was wormed every day from day 42 of pregnancy to having the puppies, to ensure they were born worm free, and they will be wormed regularly up to 8 weeks. They go to their new homes with their first vaccination and their microchip too. If you would like to chat, and come and visit please call, and if you would like to speak to other puppy owners please ask. holidays honoured.
