Sparse, overplucked brows?? Uneven, shapeless and fed up with using pencil or powder? Then Microblading is for you!

Microblading is a manual hand tool technique to produce semi-permanent hair strokes throughout the brow regardless of the amount of hair present to create natural looking brows.

This means you can exercise, swim and shower and still have perfect eyebrows afterwards. It

The initial procedure requires 2 sessions. The first session usually takes approximately 2 hours. After 6 weeks, a top up is given to go over the hair strokes to create the final look and make any adjustments that are required and to complete the procedure.
