Easi-Dec Access Platform

Right Tool for the Job

The Easi-Dec access platform provides safe, rapid access to the roofline level and can span obstructions such as porches and windows. The access platform is designed for the smaller jobs, giving access to the wall, second floor windows or soffits and gutters for maintenance and repair work. The portable work platform is assembled in a matter of minutes, and can be lifted and shifted around a building with ease, making it an ideal alternative to scaffolding.

Easy to Use

The Easi-Dec is a 2 m long platform on adjustable telescopic legs. The platform is built on the ground and then quickly raised to the required working height, giving the user a fully certified, safe, stable platform to work from.

Portable

The Easi-Dec can be transported in either a transit type van or an estate car, and can be installed and ready to start work in less than 10 minutes, a huge time saving advantage over traditional scaffolding.

Features:

Cost effective alternative to scaffolding

No tools assembly feature

Quick and simple to construct

Height adjustable in seconds

Can be moved and relocated in seconds

Consists of only 8 parts

Light weight and compact for easy storage

Adjustable elevation

Height can be easily adjusted to cope with

uneven sloping ground

Long-life durability

Non-corrosive aluminium

Flexibility to quickly change work
