

Pickup Tracking Software

Location

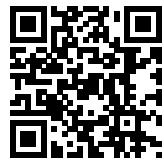

East of England, Cambridgeshire<https://www.freeadsz.co.uk/x-535992-z>

Sagar Informatics Pvt. Ltd. - Delivery Tracking System is an app for courier management system that utilizes on web-based software, along with Smartphone to manage pickup services and track individual person/route originating from the head office. Our pickup tracking software works to generate detailed route maps at any time for each delivery person, along with the order in which they make deliveries or pick-ups during their route. It is no complex software to upgrade and maintain. It all works from your Android Smartphone and any standard browser. Please feel free to contact us for demo or sales information about our pickup tracking solutions mails us on: - click to contact
