Engine ECU Remapping in Swindon and surrounding areas

## MOBILE ENGINE TUNING

\*\*\* £150 \*\*\*

Remaps available:

Economic

Stage 1

EGR delete

DPF adjustment

Launch control

Pop and bang/hard cut limiter

Start Stop disable

Swirl flaps delete

Lambda sensor delete

If your car or van is lacking the pull power for towing, come to me and I will give your vehicle a special remap that is focused on the torque and power at lower rev range.

Or if you are after better acceleration I will make your car more responsive with a safe boost of BHP to increase your 0-60 - this option is called a stage 1 remap.

If you do a lot of motorway driving or require better MPG I can give you a little extra power as well as better MPG with one of my economic remaps.

Also offering Diagnostic Testing in Swindon for £20
