If you have accidentally put the wrong fuel into your car don't worry. Even if you have rung other companies and they say it's only a problem if you have tried to start it. Really it's all scare mongery to get more cash. We are trained mechanics and its not as bad as they make out.

Draining fuel is that, draining fuel. It's not heart surgery. We drain the fuel from your vehicle and if you have started it, and the wrong fuel has past through into the engine, we will just back drain it from the engine and then refill your system with the correct fuel.

Call us for a competitive quote. We are available 24 hours and cover areas from Brighton up to Croydon, Worthing, Reigate, Horsham, Tunbridge Wells, Lewis etc. A wide coverage aimed to helping those motorists in the South of England.
