Panasonic Quintrix 32" TV (CRT) Dolby + stand. Model TX-32PB50

A few years old, but in perfect working order.
 A classic of its time!

Includes 3 surround sound speakers (left, centre, right), plus original manual.
 Stand includes 2 glass shelves under.

Pretty ancient, but a high quality device, and still produces a clear picture via Freeview, Sky, etc.

Dimensions (approx.): overall width 84cm, height of TV 55cm, on stand 104cm.
 3 Scart connections, plus audio output, on back.

For years we've been waiting for it to go wrong, to force us to buy a new one.
 But it hasn't! So we're finally biting the bullet.

Personal collection only (a very heavy machine – needs 2!)
