An extremely healthy and beautiful litter of Japanese Spitz puppies. KC registered, vac and wormed to date. No tear staining or health issues. They come from a line of show champions on both sides. I own mum and dad. Both parents are now pets and can be viewed. Show standard quality, intelligent and suitable for agility. Great as a family pet as they are very gentle and full of fun. Their coats are self cleaning, no tatting like all other long coat breeds. Easy to train and are very obedient. We have one girl and two.
