

# GAMEKEEPER Bred Springer Spaniel Puppies (595 GBP)

Location **West Midlands, Herefordshire**  
<https://www.freeadsz.co.uk/x-536447-z>

Gamekeeper bred superb liver/w and black/white confident puppies.

Mother is a faultless bitch, that excels in the picking up line but also a pleasure to beat with. She, like the sire, is very biddable and eager to please. She is also happy to settle in front of the soaps after a days shooting. A real pleasure to work and own.

Sire is owned by another local gamekeeper, a strong biddable dog also liver and white who also excels in the picking up line and dogging in.

Both parents are used daily and out during the season, dogging in as well as shoot days and still happy to give 110% - Viewing can also be organised if required.

Puppies have been legally docked and will come with the legal certification. They will be microchipped as legally required and can have their first vaccination (this is included and I would prefer this to be done – especially as this is no additional cost to yourselves). They have been vet checked and will be again before they go (I can provide a letter for the individual puppies for this). They will come with 4 weeks free insurance and eligible for KC registration (just awaiting forms from sire and then will apply for forms if required form KC). Puppies have been wormed regularly with panacur and will be done at 5 weeks and 8 weeks before they go. Puppy packs including change over food and mother's scented item will be given for easy transition to new home.

Puppies are confident and at 4weeks are already carrying rope toys twice their size and have been carrying a pigeon around. Videos of puppies/ individual puppy can be provided or no obligation viewing, which as you can imagine is so much easier than trying to keep a young puppy still.
