Award winning home cinema soundbar with iPhone / iPod dock and subwoofer featuring Orbit sound spatial stereo. The Orbit sound T12v3 is an elegant high quality soundbar, finished in high-gloss black like no other, specially designed for your flatscreen plasma, LCD or LED TV. The T12v3 is built around Orbit sound's spatial-stereo technology that delivers true stereo everywhere; it has an infinite sweet spot, giving you an amazing listening experience no matter where it is, or you are, in the room. It achieves this from a uniquely small footprint and without compromise, delivering a rich and powerful sound.

The T12v3 features integrated amplifiers and comes with its own subwoofer that helps it to deliver both high and low volume levels with clarity and punch. The T12v3 is easy to set up and comes with all the cables you need to be up and running in five minutes, including a digital optical cable that connects to your TV. So, whether to watch your favourite movie or to listen to your iPod or iPhone (giving you charge, menu and playback of your tunes) the T12v3 will deliver an experience like no other compact soundbar. It can even play stored and streamed video (i.e. YouTube or iPlayer) from your iPhone onto your TV.
