

SARACEN RUFTRAX MOUNTAIN BIKE 40 (40 GBP)

Location **South West, Hampshire**
<https://www.freeadsz.co.uk/x-537341-z>

Ruftrax 2 model, cost £225 when new some years ago. Aluminium frame 16 inches which is comfortable for my height of 5ft 6in.

21 speed gears. trigger shifters.V brakes. Road/trail tyres having a smooth running centre, barely used from new. Topeak mudguards fitted.

Bike will benefit from new chain and rear cog set to get back to the original crisp changes and eliminate slippage in some gears. Forks do not move as jammed but this doesn't effect ride on normal streets.

Had I time to overhaul the bike it would be fitted with a second-hand pair of non suspension forks anyway (much more efficient on roads) along with the chain and rear cog. I wouldn't be selling it then of course.

Price reflects the bike's
