Stunning medium-size dresser, finished in classy cream and gold antique-effect paintwork. Contemporary but classic, with subtle distressed finish, this is a substantial piece of furniture guaranteed to enhance any dining/living area. Originally cost about £500, sadly selling as no longer fits reorganised space.

Three drawers to top section and two below main surface, finished with decorative knobs. On pine turned legs - construction mostly pine with heavy-duty MDF on some structural parts. One feint 5cm blemish (from tealight) on underside of middle shelf, as per pic – you really have to hunt for it to find it.

Dresser separates top from bottom for easy transport. Advise good size estate car to move, able to accommodate width of just under 120cm. Cash on collection.
