Samsung Galaxy S4 mini GT-I9195 - 8GB - Black Mist Smartphone. Currently locked to EE but an unlock code supplied by EE is included in this sale.

The phone is in almost perfect condition with no scratches or marks to the screen. There is a very small nick to the silver bezel at the top left. The included headphones are unused and have never been unpacked.

The item has only been charged about 15-20 times before I purchased a larger phone.

It comes complete with all original packaging and is a full UK model complete with UK charger/cable.
