Multicolour, 5+ owners, Exotic, ultra-rare and built with a level of attention few manufacturers can match. The Bimota SB8R is superb on the track. Itâ€™s powerplant is a big V-twin borrowed from Suzukiâ€™s TL1000 but hotted up in the Rimini factory. Large throttle bodies up power to 138bhp at the crank (around 124 at the rear wheel) with devastating mid-range too. The Bimota SB8R is a delight to use. Bimotas are well built, quality is high. So if youâ€™re after a slice of motorcycling history, a bike with charm and a thing of beauty thatâ€™ll draw a crowd at any motorcycle meet, this is your bike! The North Westâ€™s finest family run motorcycle dealership, £9,500 p/x
