This bike has just been built and has many new parts (listed below). My partner called this one "The Vomit Velo" due to the rather loud colour scheme and perhaps I couldn't put it better myself!!

The bike utilises a 1970's Falcon steel frame and half chrome forks with metallic orange paint. It's built with a single speed freewheel and a fixed wheel cog on the other side of the wheel.

New parts included-

- Aero wheelset with large flange Quando hubs,
- Fixed and freewheel sprockets,
- Chainset,
- Chain,
- Brake calipers,
- Inner cables,
- Etc alloy seatpost,
- Handlebar tape,
- Vittoria Zaffiro tyres,
- Inner tubes.

Size is approx 23" / 58cm from centreline of bottom bracket to the top of the seat tube so should fit an average size male rider.

Or check it slightly so you can see it's a bit of a 'Vomit Velo' but really it's a bit of a 'Vomit Velo' as it's been reg.

You are most welcome and encouraged to come and take a look.

Can deliver with Bristol area if you cover my
