If you don't have a Will you could be leaving the division of your estate to settlement by law, rather than in line with your wishes.

If you're unmarried your partner will not necessarily receive what you want them to.

If you have children you aren't getting to decide what happens to them.

If you have possessions you wish to leave to specific individuals or money you wish to leave to charity there's no guarantee this will happen without a Will.

Creating your Will is easy and affordable with Legacy Direct Solutions Ltd and if you get in touch before 31st July 2017 the whole process only costs £19.99 for a single Will (Usually £150).

We're friendly, professional and happy to talk you through every aspect so you understand exactly what's happening.
