Designed with Hybridrive technology, the Bright Starts Ingenuity bouncer has been designed to help busy parents. It will automatically bounce little one in a soothing manner as if parents are bouncing them themselves - perfect for those busy times when they are trying to juggle two things at once and have their hands full! This special programme runs for 30 minutes of continual bouncing, and the gentle softbeats rhythm plays sounds just like a heartbeat to help soothe baby. The comfortable seat unit, will gently cradle baby and features a removable head support, and an integrated bolster and a three point safety harness. It also features a toy bar with two plush toys to keep baby entertained and plays eight melodies and three nature sounds.
