Host.co.in was established in 2005 with a vision of providing best in class yet affordable web hosting services and technologies to our customers in India and overseas. We are committed to providing highly reliable, transparent, secure and affordable hosting solutions to individuals and businesses.

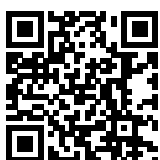

Our team of highly qualified and motivated engineers, technicians and support staff are determined to make your hosting experience with us an unforgettable one. We believe in creating lasting relationships with our customers as building blocks of true growth and success. Our R&D team is constantly involved in upgrading and improving our processes and services to bring our customers the most innovative and effective services.

Our hosting services are backed by our own state-of-the-art datacenter located in Nashik, Maharashtra. The datacenter is powered by highly redundant network, uninterrupted power backup facilities and backed by our team of experts available round the clock to deal with any issues that might arise.

Since inception in 2005, we at Host.co.in have consistently worked towards developing highly reliable, cost effective and innovative web hosting and technology solutions for our customers in India. We have established ourselves in the Indian web hosting industry as a leading hosting provider known for the best uptime, reliability and expert 24X7 customer support.

Customer satisfaction is of the greatest importance to us. Growth is not possible without their continued patronage. Our hosting services are designed to help you make the most from your website. Our experience of the hosting market in India has helped us to fine-tune our technical expertise to come up with path breaking hosting solutions.

Today, we have earned an esteemed clientele of Government agencies, leading corporates and businesses as well as individuals who are fully satisfied with our products and services. We look forward to taking you into the world of growth.
