Hi, my name is Neil

With over 40 years experience as a professional photographer and 15 years in video production I bring you the best service possible in event recording.

My skills will ensure great coverage of your special event, creating a long term record of the moments that make you smile for years to come. In reportage style I capture the joyful feelings of those present and the magical surroundings of the event venue.

Formal Guest on arrival setup available to ensure all those participating get a record of their attendance at the event. Mix still photograph coverage with video capture of key moments, speeches and other moving highlights. Lighting is used and professional sound recording along with experience to go far beyond that achieved by guests using their iPhone or similar device.

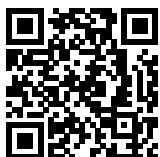

You control how your record of the event is mastered to a final programme and then published if you desire. I can work with you to compile and edit the results to your ideas or I can take that role and create a finished and polished result, as a printed album, a digital format album or combined into a video memory sequence of your desired length.

Stills and footage can be supplied in their raw state if you wish to compile your own creation or share on social media platforms such as Instagram. Online albums can be created and populated for you and a link supplied for you to simply pass to others or share via. Facebook etc.

Talk with me to identify the best option that suits the event and your budget allocation.

Here to help you build great memories.

Neil on 0121 288 8862 0121 288 88...(click to reveal full phone)
