

Network Lab for rent - CCNA Standard set of routers, switches, workstations, etc for C

Location **London, London**

<https://www.freeadsz.co.uk/x-540389-z>

Set of routers, switches, workstations and other equipment essential for home lab to practice for CCNA exam.

If you are preparing for your CCNA exam, you have many tools to practice in virtual environment, like Packet Tracer or GNS3. But there is nothing like having hands on real equipment, setting up your own lab, using right cabling, listening to hardware's noise, getting your hands dirty. Now you don't need to spend thousands of pounds on expensive devices, you can rent whole lab for as long as necessary (minimum 7 days) and test connections, CLI commands, topologies, etc with a real gear.

Set includes:

- 1 x Cisco Router 1841
- 1 x Cisco Router 2811
- 2 x Cisco 2960-TT/L Switch
- 4 x Workstation (Raspberry Pi)
- 1 x KVM switch and cables
- 8 x Ethernet cables
- 4 x Crossover cables
- 2 x Serial cable DTE-DCE
- 1 x Console cable
- 1 x Power strip + switchable extension for raspberries
- 1 x Desktop rack 6U

Rental for at least 7 days at £10 per day

Fully refundable deposit of £450 required

24h/7d on from Friday next day delivery around
