Zontes Mantis 125i, The Zontes Mantis 125 puts a modern twist over a custom style with a brief nod to the stance of a chopper. In terms of size and performance the Mantis is the perfect learner bike, with a low seat height. Powered by a new variant of the counterbalanced, overhead cam 125cc Zontes engine, the Mantis is as happy on open road as it is around town. The latest generation Mantis now utilises Mikuni electronic fuel injection, which delivers outstanding fuel economy. Built to the exacting standards enjoyed by countless Zontes owners and priced very sharply to offer incredible value for money, this has to be a bike to consider for any everyday commuter. Colour Options available: Metallic Black & Petrol Blue, Mantis 125 Specification, Displacement, 124cc, Fuel System, Electronic Fuel Injection, Rear Suspension, Twin Shock, Rear Tyre, 130/70-17 CST, Wheelbase, 1310mm, Drive, Chain, Seat Height, 750mm, Max Net Power Kw/Rpm, 8.0KW at 9000RPM, Cooling System, Air Cooled, Front Tyre, 90/90-17 CST, Length X Width X Height, 1993 x 750
