Get re-connected to the 70 s with this retro telephone table--a genuine Chippy brand, a real collector's item. In teak, it comes complete with a little cube like storage cupboard (for your phone books of course...)..and because they didn't have speed-dial in the 70 s, there's even a pull out, wipe clean jotter pad for your favourite numbers. This is the kind your granny would have sat on in the hall to make her calls. But if you're really quick, you can make your conversations much more comfy--because we'll throw in the soft red cushion.
