

Collings OM1 H Acoustic Guitar, Herringbone Binding 2,395 ono (2,395 GBP)

Location **South West, Avon**
<https://www.freeadsz.co.uk/x-542404-z>

I'M SELLING ONE OF TWO GUITARS!
The other one is in this ad:
Collings OM1 Acoustic Guitar £2.395 ono

It means, that you can come and try out two similar and very different guitars!

THIS Collings OM1H Serial Number 16908 is from 2009-10.
'OM' means size 000
'1' means Select Sitka Spruce top and Honduran Mahogany back and sides
'H' stands for herringbone-style top body binding. This option costs £100+ extra.
The original Collings hard shell case is included.

It has been played, but is in excellent condition with minor signs of use.
One ding stands more out, as can be seen in the last picture, but it is minor.
The top is evenly coloured, I just don't seem to be able to catch that.

This is a world class premium instrument, and it is pick-up only.
You'll have to come to Bristol to try the guitar out for yourself.
I will not ship it, and I am not getting involved in returns.
The guitar is lovely and in excellent condition, so come and try it and buy it, if you like it.

I was looking for "Orchestra Model," but 10 years later this guitar was found. It has a regular 14 fret body with fingerboard, guitar solo, and those to play the steel strings. It is also to find a good guitar, and what the perfect guitar is, and the Collings OM1H is often seen by the people who really know all the facts, such as the "Orchestra Model" and the Collings OM1H. The body shape makes the Collings OM1 equally easy to handle onstage or when sitting on the couch, and the relatively shallow body (barely over 4 inches deep) results in a balanced tone and an immediate response.

Specifications:
Select sitka spruce top
Mahogany back & sides
