Selling another one of my collections. This is a rare opportunity to get hold of some of the earliest issues of Q Magazine, starting with Issue 9 in June 1987 and ending with the May 1997 issue. Basically most of the issues from the first 10 years. Virtually all in excellent condition and generally read just once. These usually sell for around £5 a copy, but quite a few of these earlier ones fetch well over £10. Some have got my small, printed address label on the front cover but that can be removed (with care). If these don't sell as a job lot I'll be advertising them individually. Inspection welcome. Cash on collection only. No postage
