

PYRONIX ENFORCER 100GB STD ALARM SYSTEMS (238 GBP)

Location

South West, Gloucestershire

<https://www.freeadsz.co.uk/x-542979-z>

The Pyronix Enforcer is a complete two way Wireless Security System control panel using wireless devices manufactured by Pyronix Ltd. Two way wireless technology is a vital part of the system that keeps it safe and reliable, and in turn provides a major advantage to the installer. Each device on the Enforcer Security Alarm System is a transmitter and a receiver, offering the installer a status reading at both the Enforcer control panel, and the wireless enforcer alarm.
