Ridgeback E bike 2017

The use of Shimano's bench-mark STEPS system provides a high level of reliability and an ease of use to match. With a charge time of four hours and a range of 125km, STEPS pushes the E-bike market into new territory. Utilising a unisex step-through design and low maintenance Shimano internal hub gearing. The Electron Di2 uses the new Nexus Di2 hub, offering great features such as walk assist mode. Puncture resistant E-bike tyres keep you glued to the tarmac whilst full length mudguards protect you from spray when the weather turns. Wired-in AXA front and rear lights make a Ridgeback Electron a great choice for year round transport. This brand new Electron Di2 model costs £2399.99 and is now for sale for £1,900

Reason for sale... owner lost confidence in her ability to ride a bike.

Virtually Brand NEW used for less than a few minutes ~ as the owner slipped off starting to pull away and already had a confidence issue riding.

We also have a new E-Bike Haibike xDuro HARDSEVEN RC 2015 only ridden 14 . 4 miles from new, excellent condition Virtually NEW. Costs New £2,699.00 Now only £1,950 .00 Reason for sale.....owner lost confidence in her ability to ride this bike

(following mishap with a dog while riding the bike - ended up falling off and breaking her arm!). HENCE - brought new bike (Ridgeback 'step through' (see second advert by us)) and promptly fell off that one too! - we are selling both bikes and would consider selling together as a package or individually + many extra's.

These are genuine sales, we have all the paperwork, receipts etc, no time wasters.
