

## Drama Classes

At G12 Studios we offer professional performance training for all ages.

As well as developing confidence and the ability to work as part of a team, students studying drama have the opportunity to develop skills and understanding in creative problem solving, communication, self discipline, tolerance and empathy. Drama allows children to be active learners, engage and experience a vast range of ideas and situations in a safe and supportive atmosphere. Drama can give children an outlet for emotions, thoughts and dreams that they might not otherwise have a means to express.

We hold practical classes that develop a range of communicative and interactive skills, as well as self awareness and self discipline. We work with the children on improvisation, acting for Film & Television, on-screen acting skills, audition and acting technique, working from a TV/film Script, acting for commercials, differences between TV/Film and stage acting, acting naturally in front of the camera and what to expect on a TV/film set.

This is a fun class that motivates the children, helps them to think in new ways and explore their relation to each other, themselves and their environment as well as preparing them for TV, Commercial or Film auditions.

~~Drama classes take place all day on Saturday from 11:00am onwards.~~

The lower classes (education – addition of a school Trinity Sunday Examinations – no petition taken for 12 years to professional standards in private sessions)
