Pre School Classes

Dance is a great way to improve physical fitness and endurance as well as confidence and posture. It teaches children how to work in a team and develops grace and balance in an enjoyable way.

At G12 Studios, we specialise in Pre School Training as we feel this sets the bar for a future in the performance arts industry, the Pre School program is designed to assist with learning, confidence, musicality, rhythm as well as being a fun, relaxed atmosphere for children to enjoy themselves, meet new friends and be trained by experienced and professional teachers to the highest standards.

We offer a full range of classes designed for children of 2 years to Primary 1.

Stage: A combined class of tap, modern and ballet, this is our most popular class and is a great way for them to have fun and learn the basics from all dance forms. Hip Hop: A fabulous class for fun to popular music, very popular with boys, although we have some excellent girls who partake. RAD Ballet: This is a ballet only class and prepares students for the next level in their ballet training. Drama & Vocal: This is a fun class, that really helps with confidence, musicality and is so much fun covering many of the children's most popular Disney
