A standard size black faux leather sofa which can do bed too. Bought it £240 18 months ago I need to get rid of it as other pieces that I have at home due to moving in a furnished flat. I am happy to let it go for £80.

- I also have a washing machine that I've only used for about 8 months in a another flat, as I moved twice having machines already inside I never used mine again. I bough it £220, happy to let it go at £90.

I have also a fridge and some basic but good furniture's that I am happy to see going and a double bed frame, all around their £20/ £40/£50's.

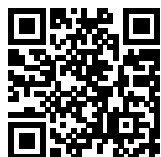

A bicycle which I bought in Halford about 2 years ago and only less than 20 hours. Bought it £190, happy to see it going at £80 (Women bike)

Those items need to go soon as I have to move out of my flat within the next few days, happy to make a deal package if you take a few
