GOT 29TH OF MARCH NEVER USED STILL HAS 7 MONTH LEFT WARRANTY

Asus ZenBook UX390UA, Intel Core i7 Processor, 16Gb RAM, 512Gb SSD Storage, 12.5 inch Full HD Laptop - Rose Gold

The beautiful Asus ZenBook UX390UA Laptop is unbelievably slim, lightweight and powerful.

Using premium, aerospace-grade aluminum — lighter than standard laptop alloy, but 50% stronger — Asus have reduced the weight to an incredible 910g and honed the profile to an amazingly thin 11.9mm. Not only is it perfect for slipping into your bag, you can also hold it in your hand for extended periods.

To keep the 12.5 inch display lightweight and ultra-slim, it's protected by super-strong Corning® Gorilla® Glass 4 that's twice as thin as standard cover glass. With wide 178° viewing angles, superb color reproduction and crisp detail delivered by ASUS Splendid and ASUS Tru2Life technologies, it really does need to be seen to be believed.

It's also incredibly powerful for a laptop this light, with the latest Intel® Core™ i7 processor, 16Gb of 2133MHz LPDDR3 RAM and the latest USB-C port to zip through everything you need. So there's no need to worry about what you can or can't do with your ZenBook 3 — it's practically unstoppable.

Beneath that stunning spun-metal chassis also lurks a 512Gb Solid State Drive and high-speed 802.11ac Wi-Fi connectivity, so the UX330 is a turbocharged machine for your daily computing needs, including a super-fast boot-up.

It has a built-in fingerprint sensor on the power button, so you don't need to type in a password every time you log in — just a quick touch is all it takes. You get a battery life of 9 hours, and that gives you plenty of time to go about your business, means you can take it up to work, university in style.

It's a cool customer too, thanks to an innovative cooling system just 1mm thick that gently expels warm air through hidden vents in the hinge for efficient, beautifully quiet cooling even under full load.

The Asus Golden Ear engineering team have also developed SonicMaster audio featuring Harmon Kardon technology to create stunning sound through 4 speakers. Depth: 191mm DMSD Size: 11.9mm Height:
