When I bought it there were 5 or 6 scratches in different places and to save having a patchwork quilt effect I had it resprayed at a cost of £1500. Pre spray pictures available.

I have retired and doing these vans is a hobby. I search the country for the best at the right price and then make them better. If I was doing it for a living I'd go bust as I never make more than a few quid on them but it's better than daytime TV.

These days unfortunately you have to register them when you buy them or become a trader. So I am the 3rd owner. I have been working on it it since Febuary and it is absolutely stunning a real head turner. I

only do the bolt on bits and cleaning myself everything else is done by professionals.

Superb too, we nice small cars and practical. Plenty of power, with the 1323 cc, if you want more, you can go in touch with the expert who can take it up to 200BHP by re-engineering for a price.
