Location

South West, Gloucestershire

Has slight cosmetic damage to the n/s mainly the rear arch and mirror there are a few scratches along also this was due to a caravan moving into this side at 10mph.

This car has been deemed write off by insurance but I bought it back and have been driving it as there is nothing wrong apart from cosmetic as described and it's a good car to let be crushed.

I am selling because I have just bought a van and need the space on drive and don't need 2 vehicles.

Taxed and mot done 3 months ago.

I have more pics.
