Jovik Electric Tricycle PRODUCT DESCRIPTION

The Jovik Aluminium Electric Adults trike is designed with comfort and ease in mind. They are a perfect way to cycle for all types of riders, whether you suffer from mobility issues and require an electric adults tricycle, are a novice rider or a competent cyclist who just wants the ease of a three wheeled bike and room for their extra shopping and it has the added bonus of power assistance.

The design of the Jovik Electric Tricycle enables smooth and easy handling, giving the rider full control and confidence with every ride. This is an excellent form of powered transportation, with the added benefit of keeping fit.

Complies with EAPC Requirements / UK Laws
FRAME

Is a traditional Dutch style with an upright position allowing the rider to have a comfortable ride and encourages a healthy posture. The low stride frame will make mounting and dismounting a little easier. The electric cabling is discreetly hidden within the sleek eye catching aluminium lightweight frame.

BATTERY MOTOR

36v lithium battery / 250 watt brush-less motor allowing a top speed of 15 mph and a range of 20 miles plus. All of this is fully controlled by the simple touch of a button. The battery has an unbelievable 10 years life span or 2000 recharge cycle.

Unique smart unit design which will never overcharge or get damaged. There is a handy gauge on the control panel to keep you informed of the battery life at all times.

PARKING BRAKES

The Jovik Electric Adults trike comes with parking brakes on the front and rear. Flip up the brakes and push the flick switch down giving you a complete piece of mind. The tricycle is now stranded.

CHAIN GUARDS

The Jovik Electric tricycle has chain guards on both wheels powered by the rider. No more splash on rainy day rides.

HANDLE BARS

Protective chain guards will be fitted to the trikes as standard as we do not want riders catching or greasing on their best trousers!

The adjustable handlebars allow the rider to position to their desired height and angle. We understand that not all riders want to sit in the same position
