

Chinese Rice Cooker with multiple functions (20 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-547194-z>

The rice cooker is a popular Philips model bought in China that i have used only for one year. Need to sell it as I'm packing up to leave the UK.

It can cook rice, for sure, within 35 minutes, and also make porridge, yogurt and soup, etc., as it is well sealed for cooking to give pressure on food, softening and heating them quickly. I often use this to cook rib&corn soups myself. You can also set a timer before you sleep at night and wake to have freshly cooked breakfast porridge. Explore it yourself!

Perfect for 1-4 people. 3.6 kg.

it was bought for around £30, and is now on sale for only £20. If you are willing to take it around mid-September, talk to me for possible!
