Hi, my name is Chris.

I class myself as a documentary style wedding photographer, I prefer to capture the moments and love to capture the emotions, I don't believe in ever having you pose for the camera (unless for group shots) these candid moments to me are more special and meaningful, so hopefully when you look through you'll be laughing and smiling

I edit all my photos using Adobe Lightroom and then upload them to my online account, I will send you a special link (for only you to see) and you will be able to download all the pictures from there. (2-4 weeks to complete editing)

Pricing: I offer 1 package which is £600 for a full day (10 hours) and all editing (10+ hours)

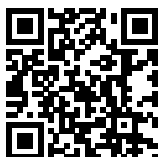

You can expect around 600-800 edited pictures for a full day's shoot and also receive the unedited versions.
