

stunning show type cocker spaniel puppies (900 GBP)

Location **Wales, Gwent**
<https://www.freeadsz.co.uk/x-547858-z>

Our beautiful girl has given birth to 8 healthy chunky puppies born on 26th July so will be ready to go to their forever homes on or after the 20th of September at 8 weeks of age.

Both mum and dad are treasured family pets and this is her first litter as we are hobby breeders. The puppies will not be KC registered as they will be sold as family pets only. Both parents are full pedigree cocker spaniels.

Mum is a stunning lemon roan and dad is a very handsome black roan. They both have amazing temperaments which we can already see has been passed on to the puppies. They are loving, loyal and very friendly, typical of the breed.

Puppies are all strong and healthy, independent, outgoing and well socialised. Used to children, cats, and various household noises. They have been raised in our busy family home with plenty of things going on. There are 5 chunky boys and 3 girls, all with happy wagging tails as nature intended. They all have gorgeous markings and are various colours.

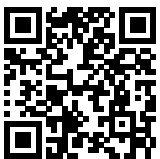

We don't have a tiered pricing structure for different colours & sexes. We don't see any of our puppies as more valuable than another, so all puppies will be £900.

They will come with a vet's certificate of health, microchipped as per new law and will have received their first vaccination.

They are up to date with flea & worm treatment and are already learning to use puppy pads.

All these wonderful puppies deserve a loving forever home, so please think carefully before you buy. I'm more than happy to discuss with you the suitability of the puppy or any worries you might have for your household.

a non returnable deposit of £200 will secure the puppy of your choice. Regular updates via email or text will be provided to you while waiting for your puppy.
