I purchased this ipad pro Rose gold 9.7 256 gb non sim version, in February this year in Hong Kong (where I live six months of the year).
 It comes with apple's international warranty as std. It has been opened and switched on but never used, it still requires 'setting up' so is completely... as new!
 It has no marks or blemishes of any kind and has remained boxed except to maintain battery charging once per week to keep the battery in a good state.
 I paid \$6500HK which is approx' 641.00 GBP and will accept 450.00 GBP cash upon collection.
 No offers thank you... this is a bargain! N.B no posting etc. collection only - cash only!,
