We have for sale a custom built cabin bed to fit a standard single mattress. The bed consists of two large storage cupboards, a small book case between and a mattress casement on top. The total height of the bed is 940mm making it very easy for young and older children to climb in and out unaided. The bed casement (where the mattress fits) is 2 metres by 1 metre in dimension and fits a single mattress in it, with enough finger space all round to fit sheets etc. As per the photos the cupboards are narrower than the mattress case so providing a gap at the rear to allow access to power sockets or additional storage. The bed is currently painted pink but can be easily changed by painting it in any colour of your choice.

The bed has been designed in a modular form for transporting but uses very simple fittings for locking all the parts securely together. There is no rocket science here so easy to DIY. The mattress case is the largest part and it will require a large vehicle, such as a van or roof rack/ trailer to transport it.

Please note there is no mattress (or quilt) included.

Dimension:

Bed assembled (max sizes) = 2000mm long x 1000mm wide x 940mm high.

Each unit when disassembled:

Mattress case = 2000mm x 1000mm x 290mm

Plinth = 1950mm x 695mm x 100mm

Cupboards x 2 = 595mm x 720mm x 550mm

Book shelf = 770mm x 310mm x 550mm
