

Alfie
15.2hh Fresian x TB between 5-7years old
Dark brown/black

Alfie is for sale as a project as he was advertised as a riding and quiet and was only unsuitable for novices because he was earshy but unfortunately that was not true.

Alfie's good points:

- He is a beautiful boy with lovely paces, as seen through lunging.
- He can be very gentle in the stable and loves a cuddle
- Loves to be groomed and pampered
- Has great prospect with the right home
- He is a lovely character and really wants to try and please and be gentle

Alfies riding history:

- When viewing Alfie, excuses were made about a saddle not being available and so on, so I did not see him ridden. But I was shown pictures and a very short video. When trying to ride him at current yard, he wouldn't stand at the mountain block and when getting on, I was barely in the saddle before he bolted off and bronced me off. This happened another time before I got a second opinion and it was found that at the time he had sore back but since then he has had his teeth, back, tack and feet checked and he is sound. I haven't however tried to ride him as he has shattered my confidence.

Other information:

• Alfie can be very strong and will take advantage sometimes.
 • He is a bit spooky and wary of his surroundings.
 • His cooperation in the work will not be that good in a new job. He can be a bit of a horse.
 • He needs an experienced knowledge of the horse world, someone who can give him the time and the dedication to take him right back to the basics.
 • It was thought that the problems that Alfie has, has been through his previous homes. Since being injured from being thrown off and just not having the knowledge, I cannot give him the home he needs.
 • Over 21 years only.
 • Please text or email me as a lot of the time I don't receive calls. Thank!
