

Electric cutting machine TREZO 160 0.8 HV and Transformer (572 GBP)

Location **South West, Cornwall**
<https://www.freeadsz.co.uk/x-548833-z>

The TREZO 160 HV series in the version with the electric motor is widely used mainly for cutting all types of blades, tea, tobacco, herbs, paper sheets - documents, etc.

The HV series has an electric motor. Its solid aluminum structure is equipped with a stainless steel feed tray to measure the material to be cut, tiny sheets or other loose material on the cutting rollers. In the model TREZO 160 0.8 HV have been mounted two rollers of cut of 160mm with the adjustable combs with the spacing of teeth of 0.8mm. All quick wear parts can be replaced with new ones available in our offer. Spare parts with a distance of 0.8mm and 1.1mm can be applied to the machine.

Transformer with overload protection (AC 220 / 230V -> 24V) included.

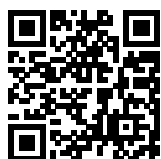

Price : 572 euros
