Do you wish to have full control over the content of your website?

Then choosing a perfect CMS is the only solution that will empower you to seamlessly develop, create and manage your site. Sitefinity is a CMS platform that helps to easily create and manage commercial sites, intranets, portals and community sites in a hassle free manner. With Sitefinity, you can use a wide variety of built in components like Modules, Pages, Widgets and perform tasks through APIs instead of the user interface.

The true value of Sitefinity:

- Safe and user friendly environment for developers and users
- Supports your mobile strategy with great flexibility
- In-built e-mail campaign management for online marketers
- Social media tools offered to spread business messages
- Seamless e-commerce integration
- SEO friendly and google analytics integrated
- Easy to import data from other CMS

IDS Logic is a reputed offshore Sitefinity development company serving clients spread across US, UK, Australia and etc. Since our core area of focus is Dot Net, we have an expert team of best of breed developers having proficiency in Sitefinity development. Our team has worked exhaustively on various Sitefinity projects and we have achieved the Sitefinity best website of the year award 2017 that reflect our passion and expertise.
