

# Pre-Loved BABY bottle Microwave Steriliser by MotherCare (5 GBP)

I am letting go my steriliser for 5£. It's in very good conditions. It measures 30cm in diameter and about 18/19cm in height, so make sure your microwave is big enough to let this baby in. Will have space for about 12 pcs between bottles and teats. Comes with original manual and plastic tongs to keep bottles sterile when you take them out of the steriliser.
