Joe is a male tabby kitten: domestic short hair. He is four months old. He enjoys pottering about the house after play mice and bell balls. Fully litter trained, weaned, fleaded and wormed. Needs only a loving home with space for his litter tray and food bowl. He eats a variety of foods. This precious kitten needs a loving family home in a clean environment. Used to listening to the radio and occasionally watching TV . Entertains himself playing with his fellow felines-both kitten and adult cats. A delightful character. Cuddle him and see for yourself. Needs only vaccinations. We are moving home soon and would like to find him a new home with a good family this.
