Roland TD-30KSE Special Edition V-Drum Electriconic Drum Kit

---

Complete with user manuals for pedals and kit. CD included with drivers for computer in order to play along with music/import more kits onto the module.

The kit alone costs £3800 brand new (PMT, now discontinued as it's a special edition) and that is without all the good quality pedals, throne and all the accessories so asking price is very reasonable as it is the full package. Open to serious offers.

Selling to fund my next project.
