Zahra Sugaring hair removal

any unwanted hair removed using the ancient art of Zahra. Sugar and lemon juice compound is applied to the area and then flicked off gently and skilfully in the direction of the hair growth. Repeat procedure against the hair growth to achieve a smooth finish. All treatments are carried out just in the outskirts of Diss free parking and a private and friendly envoronment.

If you are shaving regularly then this treatment will remove the repeat growth you are experiencing on a daily basis and the painful activity you experience with razors will become an action of the past. This treatment is all year round and not just for summer.
