What I like most about photography are the moments that you can't anticipate: You have to be constantly watching for it. Ready to welcome the unexpected. Modern life moves at a fast pace, photography allows us to take an instant out of time and capture it. With my creative and relax style, we can work together to capture your memories.

Being a parent to a camera dodging toddler, and husband to a drama teaching wife, I am well equipped to working with the most camera timid to those who love to be in front of the lens. Being a little camera shy myself, I understand that most people aren't used to being professionally photographed. Whether it's a family shoot kicking up leaves with your kids, or saying those important and nerve wracking I do's, my fun and friendly approach will allow you to enjoy the experience whilst I take care of the rest.

I am passionate about photography and pride myself on my eye for detail, and fastidious approach to all that I do. I thrive on the hustle and bustle of a busy wedding and yet love the challenge of mischievous toddlers and all that encapsulates real family.
